

FAITH IN GOD

Alexandra Schmal

Hey-oh, wake up little girl. It's time to get up on your own feet. Now slow, one step at a time, trouble'll make you fall down on your knees.

You ain't got to run so fast, better think what you're doing, baby. Take your advantage, but not for selfish purposes, no! You got to keep on going caring.

Take it away, you want diamonds, life without care. But you won't get it until you make up your mind what you really want for your life. You gotta have a little faith in God.

**Hey-Hey! Hey-yeah! Say everything gonna be alright!
Hey-Hey! Hey-yeah! Just trust in him, he'll win the fight!**

Hey-oh, look at your face, looks like someone's let you down again. Cheer up, Love, your day is near when you can show them that your effort served right.

Patient is hard to be, but there is trust and love to help you along. But most of all have faith in yourself and you can get anything you want, yeah!

Take it away, you want diamonds, life without care. But you won't get it until you make up your mind what you really want for your life. You gotta have a little faith in God.

**Hey-Hey! Hey-yeah! Say everything gonna be alright!
Hey-Hey! Hey-yeah! Just trust in him, he'll win the fight!**
