Jesus Saviour

Alexandra Schmal

God said let there be light there it was. Let the mountains arise made valleys low.
Made water of all kind   let it flow. He created all life   with His word.

Made children of His own   here we are. He never leaves us alone   in the dark.
He promises if we call out on His name and believing with all our heart   we'll be saved.

Chorus:

Jesus - Christ and Lord of Lords!   Jesus - Name above names!
Jesus - Keeper of heaven and earth!   Jesus - Saviour!

God of miracles He is   and of power. He's existing only of   pure love.
He is opening up heaven for you. He's inviting every second now it's up to you!

Chorus

Rap:

The holy trinity decides: No longer sin, no longer pride.
It all was lasting way to long, now I'm gonna take you home,
where there's no hunger, fear or pain. No one will ever be the same.
I'll make you new from inside out, then you will no more have to doubt
that I love you more than my life. It's only me you need to strive.
I give you freedom 'nstead of chains and no more standing in the rain,
or playing all those stupid games. I take away every shame
of all mankind and all creation - I gave myself for your salvation!

Chorus
