

LIKE AN ANGEL

Alexandra Schmal

When night is falling and I did all I could do,
I hear you calling, I wanna be right there with you.
Through this peaceful quiet I feel the heaven cry,
the rain on my skin as if you wanna sigh

**Like an angel - calling out my name. Like an a____ngel.
Like an angel - |:halling through the rain.:|**

I see you smiling - my heart's melting away.
Too far to be near, still you reach me to say.
Have no fear for I will lead you through the dark!
With my eyes on him, I knew he gonna talk.

**Like an angel - calling out my name. Like an a____ngel.
Like an angel - |:halling through the rain.:|**

Your love is covering my soul, you're taking away, oh, the darkest day.
You're keeping me warm, oh, everyday, always.
Like someone I know long you where reading my heart right from
the start. For you taking my high I pray you'd come and sigh.

**Like an angel - calling out my name. Like an a____ngel.
Like an angel - |:halling through the rain.:|**
